Fall 2004 Interviews

Name:

Year:

What do you want to talk about?

What was the most significant growth you saw in yourself from your summer (service) experience?

What is something that you have learned or realized about yourself since being back?

What is something that is on your mind for this coming school year (a critical question, a concern, a hope, a goal)?

What are your service plans for the fall? What would follow from your previous service and summer experience or from your passion? What is your goal for how you will engage in your community?
